3	Dominika Mravčáková	Centre of Biosciences of the Slovak Academy of Sciences	Slovakia	Epidemiology and Economics, Warsaw University of Life	Poland	Experimental haemonchosis in lambs: effect of medicinal herbs on histopathology
---	----------------------------	---	----------	---	--------	--

Keywords: sheep, medicinal herbs, *Artemisia absinthium*, *Malva mauritiana*, in vivo efficacy, *Haemonchus contortus*

The purpose of my STSM with the working group of Prof. Kaba at the Laboratory of Veterinary Epidemiology and Economics, Warsaw University of Life Sciences in Poland was to learn how to prepare samples for histopathological analysis and how to correctly evaluate histopathological changes in sheep abomasum due to the haemonchosis.
